

Professional Advisors Panel

The Professional Advisors Panel is a brand new initiative specifically designed to offer members extended support across every aspect of their business. This is a development of our highly successful Insurance Broker Panel scheme whereby BAR members receive unlimited support, guidance and advice from

qualified specialist companies within the UK. We are constantly looking at ways to support our members businesses; therefore, if this initiative proves to be a success, we will develop the Professional Advisors Panel even further into other relevant areas such as Health & Safety and Environmental services.

For any independent insurance, financial or legal advice, please contact a BAR Professional Advisor partner.
