

COVID-19 Relaxed Drivers' Hours Rules - are you compliant?

BACKHOUSE
JONES

TEAM

Backhouse Jones are offering a service for operators working under the relaxed EU and GB Drivers' Hours Rules during this extraordinary time.

Operators are providing an important service but may not be aware of the additional compliance obligations. Whilst the relaxation is a welcome relief, it is important that operators ensure that the relaxed rules are being complied with.

Operators may experience the following challenges:

- Difficulty with software packages that are not configured to the relaxed rules.
- Wholesale infringements being reported.
- Reviewing each infringement to establish if the driver has complied and whether there are the required records.
- Complications when calculating weekly rest.

Our service offers the following:

- A review of your data.
- A comprehensive compliance report with recommendations.

£200 plus VAT for one week's worth of data for up to 10 drivers (including the associated vehicle unit data). An additional £200 plus VAT for every additional ten drivers' data supplied.

Contact our regulatory team: regulatory@backhouses.co.uk
or on 01254 828 300.
